No hand cycles are permitted. The 2024 Gold Coast Marathon presented by ASICS is conducted under Athletics Australia, World Para Athletics and World Athletics rules which clearly state that the CPL Wheelchair Marathon is an athletics event and only a recognised racing wheelchair is permitted. No mechanical gears are permitted on the chair.

Refer "[Race Policies](#)" for further information.

Can I participate in a day wheelchair?

The race organiser has strong risk management concerns about the inclusion of participants other than runners in our events based on the known congestion and inattentive behaviour of some runners and the potential for accidents to occur. Day wheelchairs may compete in any race (except for the CPL Wheelchair Marathon, CPL Wheelchair 10km and Wheelchair 4km which are for racing wheelchair competitors only). For the safety of yourself and others, we recommend affixing a flag to your wheelchair and starting from the very rear of the starting field in each race. However, if you are an experienced participant you may elect to start in the start zone based on your anticipated finish time. Please note, age restrictions apply for each race.

Hand cycles are not permitted.

Refer "[Race Policies](#)" for further information.

Race Weekend Tips

Despite the ideal winter conditions, runners can often fall into a false sense of security and ignore exercise-induced physiological effects associated with participating in a Gold Coast Marathon presented by ASICS race. Please keep these tips in mind while running so you have a safe and memorable experience:

- Only undertake the event if you're adequately prepared and medically fit.
- Complete your emergency contact details on the back of your race number.
- Avoid dehydrating drinks (i.e. caffeine, alcohol, energy drinks) the day before and on the day of your race.
- Stay hydrated on course. Even if you don't feel thirsty, take advantage of our aid stations located on course.
- If you require medical attention, please report to an aid station, race marshal or on-course medical personnel for assistance.
- If you're feeling faint or unwell during or after your run, stop and seek medical assistance immediately.
- After your race, seek shade and rehydrate with water and Fixx Nutrition Fuel X in the Recovery Area.

On Course

For medical attention on course, please report to an aid station, race marshal or identified medical personnel for assistance. At selected aid stations from the 15km mark (Marathon) there will be 'self-service' tables with basic first aid supplies such as band-aids and vaseline. A first aider will be located at each aid station throughout the course to help assist and identify participants that require medical treatment.

ASSIST Medics first aid responders provide support to all runners on bicycles throughout the course. First aid responders monitor participants within their designated zones and administer first aid where appropriate. Athlete Support Vehicles (ASV) are a means of transport for participants that are unable to complete their chosen race due to injury. Each ASV is equipped to treat basic first aid and resourced with a first aid responder who will assess and refer.

Race Precinct

The First Aid Tent is located on the Event Lawn. The Medical Centre is located within the Recovery Area and is staffed by Gold Coast University Hospital personnel including an Intensive Care Director, doctors and nurses. The Physiotherapy Tent is located within the Recovery Area.

Ambulances

Ambulances will be located along the course and within the race precinct. Important information for interstate and international participants:

Queensland Ambulance Service has confirmed their policy on costs for interstate and international participants who use the ambulance service at the 2024 Gold Coast Marathon. There are two service distinctions:

1. If a local, interstate or international participant is transported to the Race Precinct medical centre, there will be no charge.
2. If an interstate or international participant is transported offsite (to their choice of private or public hospital) they will be charged by Queensland Ambulance Service direct. Depending on the patient's condition, they will be transported to the most suitable tertiary hospital, which also includes Brisbane hospitals and could include an air service. This service would be free for Queensland residents. Participants are made aware of the charges if their medical condition allows for the understanding of the transport costs. Some states have reciprocal arrangements with Queensland as do some private health funds. Participants are urged to check with their state ambulance service or private health fund to see if they would be covered for ambulance

transport in Queensland. Participants will be asked by QAS officers prior to travel should they wish to proceed knowing the charge (this only applies to responsive participants).

Recovery Area

After crossing the finish line, you will enter the Recovery Area which is restricted to participants only. Within this area you will find Fixx Nutrition Fuel X in the Tropical Fruits flavour, Nu-Pure water, fruit and a medical centre.

It is here you will be rewarded for your efforts with a commemorative medal and a finisher shirt if you completed the ASICS Gold Coast Marathon, Half Marathon, Southern Cross University 10km Run or Gold Coast Airport 5km.

Refreshments must be delivered to the personal refreshment booth at the ASICS Sports & Leisure Expo at the Gold Coast Convention & Exhibition Centre on **Saturday 6 July between 10am and 3pm**. No. Only registered participants with an official race number can run.

Can I bring my dog to run?

No. Only accredited animals for participant assistance with prior event approval.

Are there any recommended spectating points that I can recommend to my spectators?

Wondering where the best places to watch the Gold Coast Marathon are? The full marathon route starts at Southport and passes through The Spit, Main Beach along The Esplanade in Surfers Paradise to Kurrawa, along Hedges Ave and Albatross Ave in Mermaid Beach and Marine Parade in Miami where runners will turn around at the halfway point and head north again via a similar route. They head back to the race precinct and continue north through Labrador and Biggera Waters before doing a U-turn on Bayview St in Runaway Bay.

While there are plenty of great spots to spectate along the 42km track some of the best vantage points to catch the action are on the coastal side of Hedges Avenue, Bayview St in Runaway Bay and along Marine Parade in Miami. And of course a top spot for spectators is the start at finish lines at the Race Precinct at The Broadwater Parklands.

- Race Precinct Main Lawn (live feed)
- Pratten Park, Broadbeach (live feed, Redbull activation zone, coffee cart)
- North of Charis Seafood, Labrador (ASICS activation)

- An array of entertainment locations on the course. The GCM24 app will be updated with these locations.

Are there coffee stops/cafés along the route where we can also see the action from?

- Cafe on Bayview: 28/12 Bayview St, Runaway Bay
- Sandbar Surfers Paradise: 52 Esplanade, Surfers Paradise
- The Surfers Paradise Beach Cafe: 4 The Esplanade, Surfers Paradise
- Surfers Paradise Surf Life Saving Club: Cnr Hanlan St and The Esplanade, Surfers Paradise
- Tower 28 Cafe: beneath the Kurrawa Surf Club at the end of Charles Avenue in Broadbeach
- Elk Espresso: Up the beach end of Oasis Mall on Victoria Ave, Broadbeach
- Rafiki: 172 Hedges Ave, Mermaid Beach

Can we get our own nutrition from our own supporters/spectators on course?

If you are an elite athlete and/or running for prize money and you accept anything from spectators, that is instant disqualification. However for everyone else, we cannot enforce or police this, however it isn't recommended due to potential collisions with other runners if you are stopping in front of them.

What happens if I don't complete the race?

We have cut off times due to enforced road closures needing to open up. Therefore, we have sweepers who will pick people up in a car who don't think they'll be able to finish the race and deliver them to the western side of the race precinct – in front of Australia Fair shopping centre. Others will be asked to walk on the footpath to complete the race. If they don't finish within the allocated time, they will not be able to enter the finish chute to cross the finish line and collect their finisher rewards.

Can I walk in my event?

Pace runners for the event.

The Pat Carroll Online & Onland Pacers assist participants to their time goals in the ASICS Gold Coast Marathon, Half Marathon and Southern Cross University 10km Run. Pacers are experienced runners who aim to maintain an even pace throughout the race with the goal to have you finishing slightly faster (30 seconds or so) than your goal time.

For easy visibility, the pace runners will be carrying a coloured balloon and a goal time sign high amongst the starting runners. Each pace runner will also wear a singlet with the goal time marked on the back. It's important to know the start zone your pace runner will be in and ensure you choose the same start zone when you enter so you can start the race near your pace runner.

Each pace time will have at least two pace runners who will lead the pace (off net-time) whilst guiding & motivating you throughout the race.

Pacers will run to the 'Net Time' (also called 'Chip Time'). Net Time is the time it takes you to complete the distance once you've crossed the start line. Note: Due to participant numbers, it may take several minutes to cross the start line after the gun is fired.
